Subject: Transformer Change Out on Saturday 7/26/2008

Marcus,

I just wanted to drop you a note and let you know what a great job Chip Ware, Eric Weiss, John Puzzo, and Scott York did for us Saturday with the transformer change out at the Pepperidge Farm Plant. It was a long miserable day and your guys stuck it out; got the job done, and really went above and beyond the call of duty. It is not often I find that I can rely on contractor to deliver when the project gets to a critical point like it has. Your guys proved once again that McPhee is a class act. I must say that I was particularly impressed with Eric, as he was right on the money with the issue, and seemed to have more insight than even our Electrical consultant.

Looking forward to working with your team in the future...

Best Regards,

Eric J. Stroehle
