

300 Long Beach Boulevard Φ Stratford, CT 06615 Φ 1-877-677-9797

Bridgeport Hospital

OWNER	BRIDGEPORT HOSPITAL
Location	Bridgeport, CT
Project Value	\$225,000
Completion date	Dec 2007
Major Challenge	Installing ATS, emergency and normal power systems without any shutdown of power to switchgear that supplies ICU.
General Contractor	Bridgeport Hospital
DESCRIPTION OF WORK	
Replacement of operating room air handler, installation of 400 amp ATS, 480 volt 3 phase 4 wire panel, wiring of air handler with dual VFD feed for operating room, new lighting system, fire alarm duct smokes, 240/120 volt panel for lighting and receptacles. Very good communication, coordination and planning with hospital personnel contributed to successful installation of ATS with no shutdowns to critical care units.
