## Husky Hot Runner

<b>OWNER</b>	Husky Injection Molding Systems Ltd.
<b>Location</b>	Milton, VT.
<b>Project Value</b>	\$6 million
<b>Completion date</b>	Nov. 2005
<b>Major Challenge</b>	Working in a fully functioning manufacturing facility without causing any disruption to current operations. First project work outside of our traditional work region. Remote site.
<b>General Contractor</b>	Pizzagalli Construction Company
<b>DESCRIPTION OF WORK</b>	
700 acre campus just north of Burlington – home to North American hot runners business – world’s leading supplier of injection mold making equipment and services to the global plastics industry. This project was part of a \$13million expansion of current facilities to include the manufacturing of hot runner cold plates.
