

505 Main Street ☎ Farmington CT 06032 ☎ 1-877-677-9797

Sprint Cell Tower

OWNER	City of Chicopee, MA w/ Sprint as tenant
Location	Chicopee, MA
Project Value	\$200,000
Completion date	June 2007
Major Challenge	Active construction site, raising 20,000lbs of steel to rooftop.
General Contractor	McPhee Electric
DESCRIPTION OF WORK	
<p>Installed over 600' of power/telephone & ground cable through a school building that was under active construction. Relocated and lifted about 20,000 lbs of steel onto the roof. Ascend the flagpole to de-rig it and install the antennas then installed the 40' flagpole on rooftop</p> <p>Major challenges that were overcome included coordinating with the GC to meet with original construction schedule and utilize existing subcontractors to perform critical work. Required a 200-ton crane to relocate the flagpole because of the material weight and the reach limitations available on active construction site.</p>
