

505 Main Street Φ Farmington CT 06032 Φ 1-877-677-9797

Singer Substation - Bridgeport CT

OWNER	
Location	SINGER SUBSTATION Bridgeport, CT
Project Value	\$30 million
Completion date	June 2008
Major Challenge	Largest gas insulated substation in North America, extreme safety concerns and extensive training requirements for working in substations.
General Contractor	McPhee Electric
DESCRIPTION OF WORK	
Largest 345kV Gas Insulated Switchgear installation in North America. McPhee is general contractor for United Illuminating joint venture with Siemens Power Transmission & Distribution. This is a key element in the entire upgrade of the distribution and transmission upgrade of the very congested southwest CT area.
